

HOW TO USE YOUR

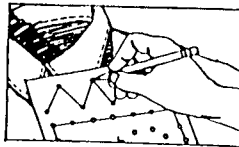

Please read all instructions
before you begin.

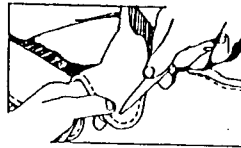

1. Pull lever back and insert lock washers (round edge first) into hole on bottom of arm as shown. Release lever after each washer is inserted.

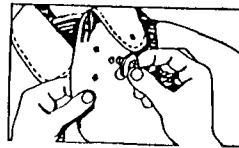

2. Create your own designs or use these stencil patterns by marking jewel location with pencil on fabric.

3. Arrange jewels and charms on the pencil marks to see how they look and fit. Use the hole punch tool to make an opening in the fabric.

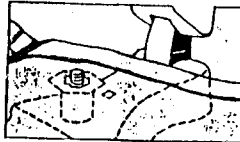

4. Choose a jewel (inserted in metallic charm if desired) and place through hole in fabric with the post showing through.

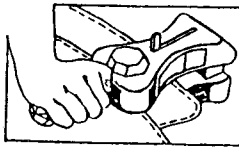

(Note: Some designs may require smaller charms due to size restraints.)

5. Place fabric with jewel in place face down onto jeweler punch stand as shown.

(Note: Jewels may not be able to be punched into some thick multi-layered fabric or on seams.)

6. Close jeweler arm and press firmly down on handle. You will hear a snap as jewel is set onto fabric.

(Caution: Fastened jewels and charms are permanent. Wash decorated garment inside out in cold water; line dry.)
