

CAPTURE COPTER™

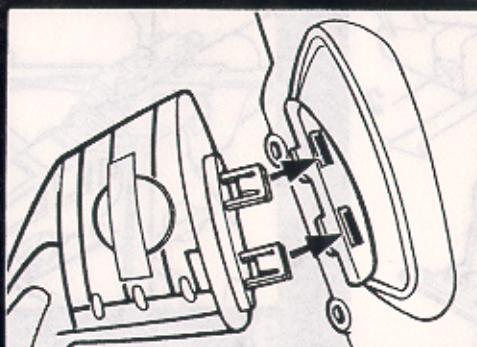

VEHICLE

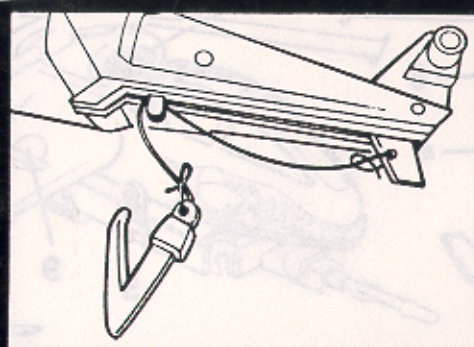

ASSEMBLY

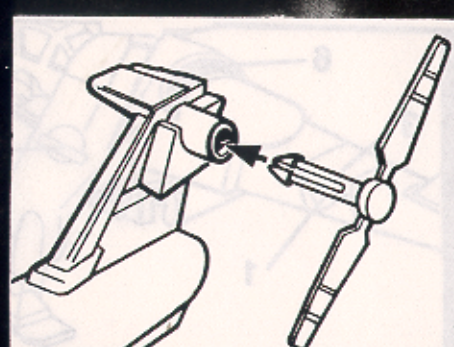

1. Snap pegs on launcher support into holes on both sides of copter bottom.

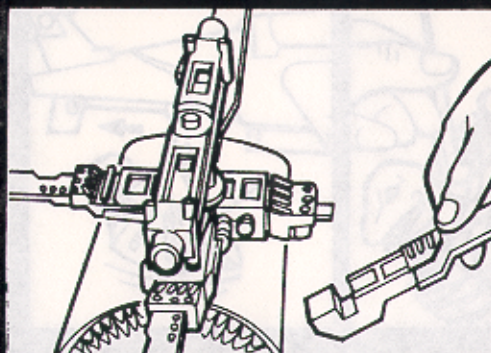

2. Press landing skids into slots on both sides of copter.

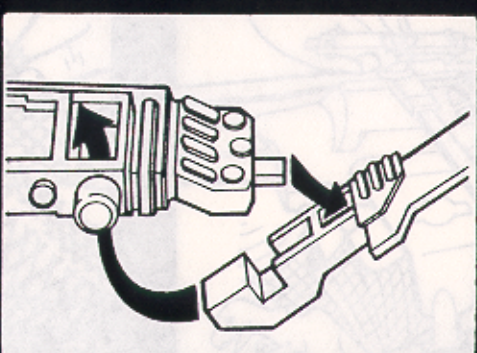

3. Tie cable onto fin. Feed cable under crossbar. Tie cable onto hook.

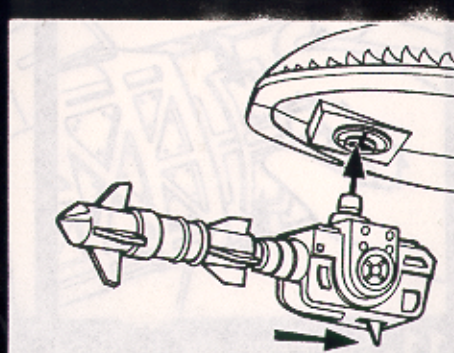

4. Snap rear rotor blades onto rear wing.

5. Align each rotor blade with pegs on prop and snap down into position.

6. Attach weights to corners of net by inserting one prong through hole in net, then twisting.

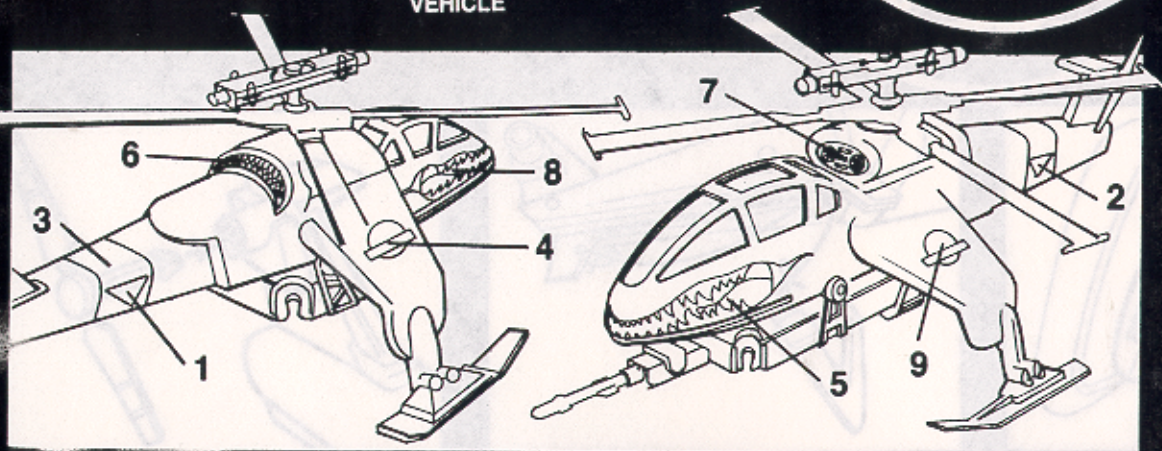

7. Snap launcher into copter. Insert missile into launcher. You will hear a click when it is loaded. Pull back on button to fire.
